https://zone1.ca/Downloads/Zone1_Requirements.pdf

20% Discount on the standard or the animated eCard templates (Batch of 10 designs).

Optional Modules

(One-Time Setup Fee)

Sending Hub

\$850

The Sending Hub module is an add-on to the admin tools. This module allows the admin to create sending campaigns on behalf of the company (the registered users). Simply, the admin will be able to select the users to send on their behalf, upload the recipients list for each user, select the desired eCard design, and set the sending date. The eCards will be delivered to the recipient's inbox as coming from each user's email address (account).

Sending Profiles

\$760

This module is developed so that an assistant can send on behalf of an executive. The admin will be able to assign a user (as an assistant) to another user (the executive). The assistant can be assigned to more than one executive and be given permission to send on their executive's behalf. When the assistant login, a list of allowed executives to send on behalf will be in place (as assigned by the admin). The assistant will be able to manage the executive's signature and the recipients list, select the eCard design and start sending on behalf. The eCards will be delivered to the recipient's inbox as coming from the executive's email address (account).

Special Occasions

\$890

The Special Occasion module is an automated Birthdays and work Anniversaries sending solution. The admin will be able to upload a sheet with the desired data (names, email addresses, month and date of birth or work anniversary dates), and then select the eCard design. Zone1 Special Occasion module will check every day for the recipients that should receive their eCards and automatically send the greetings.
